PAC Manger sends contribution to the campaign

Contribution is received by the campaign

Elected officials are requesting that checks be sent directly to their campaigns to decrease the number of hands they pass through to reduce the potential spread of COVID-19 or to have contributions electronically transferred. We are still looking for NAIFA members to “deliver” contributions, but when you reach out to a campaign, the request will no longer be “Can we meet? I have a check to deliver,” but rather, “NAIFA’s PAC has funds for your campaign. May I have a few minutes to meet in person or virtually (video chat/coffee/whatever social distancing allows)?”

We have standard language for an email or printed letter that you will be able to deliver to legislators for an in-person meeting if you wish to use this in place of providing the physical check. The language states that we recently supported the campaign and will include the amount contributed.
